## Maine Drilling & Blasting

### BLAST NOTICE

Dear Home Owner/Tenant

We at Maine Drilling and Blasting, Inc. would like to take this opportunity to introduce you to our company and advise you that we have been selected to conduct a rock drilling and blasting operation in your neighborhood.

We would like to offer you a pre-blast survey of your home or property. If you would like to have a pre-blast survey, please contact us at 1-800-370-0299 ext. 8515. This service can be provided for a fee to you and is done to document any pre-existing conditions such as cracks in dry wall and the like as many homes or buildings new and old will have them due to normal conditions. Please call us either way, as we would like to know whether or not you would like us to provide this service at a fee. Work will start as soon as possible so please call as soon as possible.

The site will be well marked with highly visible signs that detail the whistle warning sequence that will be sounded prior to commencement of each blast. All blasting operations will be conducted during daylight hours and no explosives will be stored at the construction site overnight.

If you happen to be in the building during the initiation of the blast, you may experience low levels of ground vibration. We will strive to minimize the amplitude of the blast and will be utilizing the most advanced technologies available to the blasting industry to measure the seismic effect of the area. Please be assured that the ground vibrations associated with the blasting will not exceed the established limits that could potentially cause damage.

If you have any questions or concerns I encourage you to contact me at my Auburn, NH office at 1-800-370-0299 x 8515 and I will respond to you concerns in a timely manner.

Sincerely,  
James Jillson
